Nutrition Services

Gina Stanford, Interim Director of Nutrition Services, and Ann Whetstone, Food and Nutrition Dietician Coordinator, brought a variety of snacks from their vendor for the SVA committee members to sample and provide feedback. The samples are provided by a manufacturer. The nutritional values are one of the main factors in bringing food items to the district. These "sweet crackers" are sweetened with apples, contain whole grains, and are low in sugar. Students were asked to complete a survey about each snack they sampled at the committee meeting. Maple Waffle Snaps, Mixed Berry Animal Crackers, Chocolate Chip Waffle Snaps, Crispy Granola Bites, and Veggie Sticks were among the snacks brought for sampling. Overall, students were extremely pleased and surprised with the taste and quality of the snacks.

The next step is to create a subcommittee within SVA to create an audio message or video to be sent out to the schools in P-CCS. This message will relay the information Nutrition Services has shared with SVA about dietary restrictions, how menu items are chosen, new snack options, and more.

Dress Code in the Student Handbook: Poster Design

Students were split into groups by school and were tasked with designing a poster. The poster will include a QR code that takes students to a Google Form asking for feedback on the current P-CCS dress code. The posters will be posted in each middle and high school building.
